

Telescope lances

for cleaning the inside of pipes and tubes

Telescopic lances enable the simple and fast internal cleaning of pipes and tubes. In combination with the gentle low-pressure hot cleaning process, pipes and tubes with a length of up to 7m or 14m - when cleaned from both ends - and a diameter of up to 150mm can be flexibly cleaned.

The telescopic lances are equipped with a hand screw coupling for spray accessories or the adapter SR-BTL-FV, onto which leading brushes of different sizes can be mounted. These ensure easy handling and are equipped with hollow cone nozzles that produce a 360° spray cone and thus enable thorough cleaning.

Telescope lances

- light and easy to handle
- steplessly extendable
- from 2.3m – 7.4m depending upon the model
- Lance with inside hose, pistol and hand screw coupling

Article number		1. level Ø 35 mm	2. level Ø 45 mm	3. level Ø 45 mm	total
SR-RTL 230-380	Length ca.	2.1 m	3.45 m	./.	3.9 m
SR-RTL 230-560	Length ca.	2.1 m	3.9 m	5.25 m	5.7 m
SR-RTL 290-740	Length ca.	2.7 m	5.0 m	7.0 m	7.5 m
SR-BTL-FV	Adapter with hollow cone nozzle, for use with leading brushes				

Leading brushes

- fibre material polyamide 6.6
- temperature resistant up to 120 °C
- high resistance to abrasion
- low water absorption
- adapter with hollow cone nozzle
- variable diameter of leading brushes
see table

Article number	Diameter	Length
SR-BTL 50	50 mm	65 mm
SR-BTL 60	60 mm	65 mm
SR-BTL 80	80 mm	65 mm
SR-BTL 100	100 mm	65 mm
SR-BTL 120	120 mm	65 mm
